

I am writing to express my concern over the FCC expanding the Low Power FM service and thereby forcing stations like K-Love off the air. I listen to the radio everytime I drive my car, which is 7 days a week and the only station I listen to is K-LOVE. My husband listens to only K-LOVE as well. We live in Utah and there are very few Christian radio stations here. We NEED K-LOVE! It is a positive and encouraging radio station. They only play songs that lift up high morals and family values. One more plus about the station is that there are no commercials. Please reconsider this decision and leave K-LOVE on the air! Sincerely, Barbara Nelson, Music Minister of Our Saviour's Lutheran Church.
